THE BOW

CALGARY
A PRESTIGIOUS ADDRESS

THE BOW - CALGARY, ALBERTA
A SYMBOL OF CALGARY’S PRESENCE WORLDWIDE

FEATURING WORLD-CLASS ARCHITECTURE AND DESIGN, THE BOW WAS CONSTRUCTED TO DELIVER THE ABSOLUTE HIGHEST QUALITY WORKING ENVIRONMENT AVAILABLE.

ABUNDANT NATURAL LIGHT, MODERN LEASEHOLDS AND BEST-IN-CLASS BUILDING MANAGEMENT SYSTEMS COMBINE TO MAKE THE BOW A TRULY PREMIER WORKPLACE.

MINUTES FROM THE BOW RIVER PATHWAY, RETAIL AMENITIES, THE EMERGING EAST VILLAGE AND EASE OF ACCESS TO THE CITY’S MAJOR ARTERIES, MAKE THE BOW A PREMIER ADDRESS IN DOWNTOWN CALGARY.

800,000 structural bolts
900,000 square feet of glass
130 trade disciplines
1,200 construction workers

SPECTACULAR ARCHITECTURE

The building’s bow-shaped features were meticulously designed to take full advantage of the varying Calgary weather; maximizing heat absorption in the winter and reflecting excess heat in the summer.

The glazed facade stretches upward and creates a sophisticated series of atria that run the full height of the tower. These unique spaces were designed to help create climatic buffer zones and aid in the efficient heating and cooling of the building.

The unique floorplates maximize the perimeter glass line and allow for offices with unobstructed views of the Rocky Mountains and downtown skyline.

At 236 metres, the Bow is truly a monumental building and can be seen from each and every angle of the city.
INTERNATIONALLY AWARDED DESIGN
RATED ONE OF THE WORLD’S MOST SPECTACULAR CORPORATE BUILDINGS BY EMPORIS
NATIONAL STEEL DESIGN AWARD IN 2012
AZURE MAGAZINE’S TOP 10 ARCHITECTURAL PROJECTS OF 2012
